Wood doors collection

venus

Porte lisce, pantografate o incise, in delicati colori pastello.

Nuova nelle linee e nelle tonalità, VENUS mantiene il rigore e la sobrietà delle porte lisce, cui aggiunge il gusto tradizionale delle porte classiche. La collezione si distingue nella varietà dei disegni e delle colorazioni, utili in uno stile di arredamento attento ai particolari e alla ricerca di nuove idee caratterizzanti. La geometria delle pantografature e delle incisioni vestono la porta di differenti significati rendendola adatta a rispondere ad un gusto tradizionale oppure ad un arredamento più moderno. Le trame dei nuovi tessuti donano alla superficie della porta morbidezza e design giovane.

Doors decorated or engraved by pantograph, in delicate pastel colours.

With new lines and colours VENUS maintains the rigour and sobriety of plain doors, adding the traditional familiarity of classic doors. The collection is available in a wide range of models, colours and is the right choice for a sophisticated designer alert to details and always in search of new ideas. The geometry of the pantograph work and engravings makes the doors significant in different ways, making them suitable for both traditional tastes and more modern interior decoration. The texture of the new fabrics gives softness and young design to the surface of the door.
